REMARKS

Specification Status

The Office Action cited several objections to the Specification. The Office Action states that the amendments to page 3, lines 28 – 29 does not show the proposed changes made to the original text. The paragraph beginning at page 3, lines 28 – 29 has been amended to reflect the proposed changes as made to the original text. The Office Action states that Applicants did not make changes to all the trademarks on pages 16 and 20 – 21, and those that were made on pages 16 and 23 are still not proper. The Specification has been amended to reflect proper usage of a trademark in a specification as required by the Office Action. Applicants believe that the amendments made to the Specification fully address the Office Action's objections.

Claim Status

Claims 1 – 13 and 15 are pending in the present application. No additional claims fee is believed to be due.

Claims 16 and 18 – 19 have been withdrawn as a result of the restriction requirement.

It is believed these changes do not involve any introduction of new matter. Consequently, entry of these changes is believed to be in order and is respectfully requested.

Response to Requirement for Restriction of Inventions

The Examiner has required, under 35 USC §121, election of a single disclosed invention for prosecution on the merits. Applicant hereby elects to prosecute the invention designated in the Office Action as Invention I. This election is made without traverse. Claims 1 – 13 and 15 are drawn to this invention.

Claims have been withdrawn by this amendment as being drawn to a non-elected invention.
